## ABOUT ME

---

A student of Navgurukul and done Python, Javascript, HTML, CSS and want to improve my skills and working as a developer and good at coding and always tried to learn new things and currently looking for an organization where my skills can be complemented and polished and thus further effectuate the growth of the organization.

## LEADERSHIP EXPERIENCE

---

- Maintained discipline as a monitor of my class.
- Mentored 18 students in 10 months as a part of my learning experience.
- Managed the facilities in Navgurukul as facility maintenance and during many circumstances I got to get people involve in managing campus and built the energy of the team to be involved. All over it was nice experience .
- Captained a Scouts and Guides team and won many prizes.
- Won prizes in several wrestling competitions.

## PROJECTS

---

### Hangman Game ([code](#))

Hangman is a guessing game for two or more players. One player thinks of a word, phrase or sentence and the other(s) tries to guess it by suggesting letters within a certain number of guesses.

### Login-Signup([code](#))

Register is used when you are simply adding your details to some system for future use or access. You register to vote. Sign up usually has the connotation of a service or conference.

### Tic-Tac game([code](#))

Tic-Tac-Toe is a two-player game in which the players fill up nine empty rectangles in a table with either an X or an O when it is their turn.

### Snake game([code](#))

The basic goal is to navigate a snake and eat as many apples as possible without touching the walls or the snake's body.

### Portfolio([code](#))

Software Developer Portfolio Template built with react. js and material UI with dark and light mode that helps you showcase your work and skills as a software developer.

### Calculator([code](#))

A calculator is a device that performs arithmetic operations on numbers. Basic calculators can do only addition, subtraction, multiplication and division mathematical calculations.
